*Alere has contracts nationwide and is currently monitoring patients in 36 states.*

## Customers

Alere® works with leading healthcare organizations to improve the care management of their members with chronic diseases. We understand that successful management of these members is critical to our customers. Our programs are designed to improve treatment compliance, increase member satisfaction and to reduce unnecessary hospitalizations and healthcare costs.

Alere has contracts nationwide and is currently monitoring patients in 36 states. We work with all types of providers and have HMO/PPO, Medicare and Medicaid contracts with 50 customers including the companies above.
